To: Mr. Nouri
PCC FZE
Managing Director

Sir, As I am thinking about accepting the risk and pushing me to use my name for our PCC CHINA office which located in other country. I would like to state some matter.

As keep on changing the people in our Head office and other offices like China and I don't know them personally I am willing to accept it just because I know you personally from Dubai and I have trust to your characteristic.

Therefore, before I officially sign and accept anything I would like to open up to you my current problem and I am seeking for your help to solve my current situation it's like 2 way of helping one another.

Herewith is attached of my credit statement and I would like to ask for a favourable favour from you if you can give me the advance settlement fee of our agreed amount (AED 1500 per company per month) upon our China confirmation.

I would like to close/settle my debt in advance in the bank to lessen my worries and to save money too. Instead of paying monthly interest and still principal is there. So, it's better for me to settle my full dues to them from the advance payment that you will give to me.

I am really suffering for this for how many years now and I really want to be debt free from it.

Your great help and assistance in this regard would be much appreciated.

Thanks and regards,

Carren Solano
